## **2.1. Personal Data**

GenTORE processes Personal Information because of services used and/or because Personal Information was provided to GenTORE or any of the partners of the GenTORE consortium. All Personal Information will be retained for the minimum amount of time possible to ensure legal compliance and to facilitate internal and external audits if they arise. Individuals may be contacted with the request to retain Personal Information in order to be contacted for future relevant projects.

A distinction between two categories of personal data is made for the GenTORE website:

1. A contact list of people that are interested in GenTORE (excluding partners and stakeholders) is maintained in regard to communication and dissemination purposes and is therefore managed by the work package leader of WP7 Outreach, Dissemination and Training. The European Forum for Farm Animal Breeders (EFFAB) has this responsibility within the GenTORE project. It should be noted that this contact list is solely accessible to this work package leader and the Project Executive Board (PEB) and not shared with any other partner. The Project Executive Board (PEB) is granted access to this contact list by default. Should you wish to deny the PEB access to your Personal Information, a letter stating the foregoing can be sent to the main contact person (Cagla Kaya) in order to withdraw from the contact list.
2. Project partners; for the purpose of fulfilling WP7: Dissemination, exploitation and communication, the work package leader (EFFAB) processes Personal Data of project partners for GenTORE newsletters, website, social media channels and mailings. Personal Data will be actively provided by project partners for the purpose of distribution on these channels. Only WP7 work package leader, EFFAB, will process these Personal Data.

GenTORE processes the following Personal Information; first and last name; company name; office phone number; mobile phone number; e-mail address; financial information through declarations and invoices; personal information gained through proposals and grant agreements (concerns project partners); signatures; other personal data that you actively provide, e.g. by creating a profile on the website, in correspondence through e-mail and mail, by telephone or in person.

## **2.2. Special category and sensitive data**

GenTORE processes the following special category and sensitive personal data:

- Audio-visuals (racial data); consent will be asked through consent forms for each specific event where audio-visual materials will be collected. Consents for audio-visuals can be withdrawn at any moment. In case of objections against the use of audio-visuals, we will assess whether we can meet your request. In this case, it is up to GenTORE to prove that we, in spite of your complaint, have a legitimate interest to continue

processing your audio-visuals. GenTORE is obliged to delete audio-visuals from our website within two weeks in case we find legitimate reasons to honour your request.

### **3. Purpose and legal basis of personal data processing**

#### **3.1. Purpose of non-personal data processing**

GenTORE processes Non-Personal Information to improve the Service and customize the user experience. We also aggregate Non-Personal Information in order to track trends and analyse use patterns of the Service. This Privacy Policy does not limit in any way our use or disclosure of Non-Personal Information and we reserve the right to use and disclose such Non-Personal Information to our partners and other third parties at our sole discretion.

This personal data will be deleted on your request or when this service of the project ends. Read MailChimps Privacy Policy for contacts here: <https://mailchimp.com/legal/privacy/#contacts->.

- To give you the opportunity to subscribe to our services; your first name, last name, company name, and e-mail address are registered for this purpose. This personal data will be deleted on your request or when this service of the project ends.

- Signatures are collected to confirm consent.
- Audio-visuals are collected during meetings, events, conferences, interviews and other relevant activities with the purpose of disseminating and sharing valuable content. This personal data, in case considered relevant, may be distributed on our social channels, website, e-mail, in newsletters or other relevant communication channels.
