

WHAT THE HELL IS RESILIENCE AND EFFICIENCY ACTUALLY?

Session at EAAP 2018 in collaboration with Feed-a-Gene, GplusE and SmartCow

August 28th, Dubrovnik, Croatia

14:00-18:00 - Hotel Valamar Lacroma Dubrovnik, Room Elafiti 1

Session 11, part 1:

- What do R&E mean in the real world and the underlying biology linking the two
- Achieved R&E gains and at what costs?
- Speed of changing R&E through breeding and management, and where to put our eggs
- Balancing resilience and efficiency in different environments

STAKEHOLDER PANEL DISCUSSION

- ⇒ *Goals to improve R&E*
- ⇒ *Resilience from a farmer perspective*
- ⇒ *Future gains from R&E*

Session 11 cont:

- Operational R&E measures: opportunities, approaches and limitations to large scale measurement
- Genetics and economics of a feed efficiency breeding value for New Zealand dairy cattle
- Towards quantitative characterization of piglet robustness to weaning: a modelling approach
- Development of resilience indicators using deviations in milk yield from the lactation curve
- Indirect traits for feed efficiency
